Git & GitHub

MENUCHIM EZI-UMEONU

Frontend Developer

PROFILE

I'm a passionate and detail-oriented Frontend Developer with skills in coding, troubleshooting complex problems, and assisting in the timely completion of projects. Embracing technologies, such as bootstrap and ReactJS in creating pixel-perfect designs while dealing with cross-browser compatibility concerns.

EDUCATION

Bachelor of Science, Microbiology | Covenant University, Ota
Aug 2017 - Oct 2022

EXPERIENCE

Medical Laboratory Scientist Intern | Save A Life Mission Hospital, Port Harcourt
Mar 2020 - Oct 2020

- Completed day-to-day laboratory work with minimal error and consistent procedural compliance.
- Documented testing data and reported findings with precise, accurate recordkeeping.
- Helped patients feel comfortable, safe, and respected when collecting biological samples.
- Worked with coworkers to complete tasks.

CERTIFICATIONS

COURSERA

- HTML, CSS, and Javascript for Web Developers | **Johns Hopkins University**.
